

Pavilion Annual Report 2022/23

Clanfield Football teams continue to regularly use the Pavilion & pitches.

A summer activity event was held over several days during the summer for young families which was organised by Lucy Staveley. It was well attended and very successful.

The Pavilion is available for hire for children's parties.

The building is in good repair although some minor works (including exterior cladding) will be required.

Planning Annual Report – 2022/23.

Planning applications have been straight forward. Coles Field reared its head again, but Burford Town Council, residents & West Oxfordshire District Council were able to stop the latest development once again. Otherwise all Planning projects were in line, with a rise in 'garden rooms' or 'work from home' buildings.

Cllr M Taubenheim.

Environmental Annual Report – 2022/23.

The grass cutting schedule across the town has been difficult due to weather conditions.

Grass verges continue to erode when vehicles are parking on them.

Street furniture continues to cause problems in some areas around the town making it difficult for pedestrians to pass by safely.

Cemetery Annual Report – 2022/23

This remains a tranquil place – we receive many positive comments. Councillors arrange working parties from time clearing moss and ivy from tomb stones. David Buckland continues to repair damaged stone walls and attends to the general maintenance.

Major repair works are in hand in the main driveway due to damaged water pipes. The water pressure has been very low and on occasions non-existent.

Cllr J Tunnell-Westmacott
